Containing the freshest Advices, Foreign and Domestic.

MONDAY, April 13, 1772.

BOSTON, April 13. 1772.

Wednesday last the Great and General Court or Assembly of this Province met at Cambridge.

Extract from the Minutes of COUNCIL, April 8, 1772.

MR. Hancock and others a Committee of the House of Representatives waited on his Excellency the Governor with a Message acquainting him that there was a Quorum of the House met in the Chapel of Harvard-College.

The Secretary went down to the House of Representatives, with a Message from his Excellency in the following Words, viz.

"Gentlemen, His Excellency directs the Attendance of Mr. Speaker and the House of Representatives forthwith in the Council-Chamber."

Mr. Hancock and others a Committee of the House of Representatives waited on his Excellency the Governor with a Message acquainting him that their Speaker is confined by Sickness, and that they propose immediately to proceed to the Choice of a Speaker pro Tempore, and during the absence of Mr. Cushing, and shall then present him to his Excellency for his Approbation, pursuant to the Direction of the Royal Explanatory Charter.

Mr. Pickering and others a Committee from the House waited on his Excellency with a Message acquainting him that the House had made Choice of John Hancock, Esq; for their Speaker pro Tempore during the Absence of Mr. Cushing, and were ready to present him to his Excellency for his Approbation agreeable to the Direction of the Royal Explanatory Charter.

The Secretary went down to the House of Representatives with a Message acquainting them that his Excellency was in the Chair and ready to receive their Speaker elect.

Capt. Darby and others a Committee from the House of Representatives presented John Hancock, Esq; their Speaker elect to his Excellency the Governor for his Approbation, and the said Speaker elect and the other Gentlemen being withdrawn, the Secretary went down to the House of Representatives with the following Message from his Excellency,

Gentlemen of the House of Representatives,

YOU having signified to me by Message that Thomas Cushing, Esq; your Speaker, being sick and unable to attend his Duty to the House, you have made Choice of John Hancock, Esq; to be your Speaker, during the necessary Absence of the said Thomas Cushing, Esq; and having presented him to me for my Approbation, pursuant to the Directions of the Royal Explanatory Charter: By Virtue of the Authority given me by the said Royal Explanatory Charter I do approve of the said John Hancock, Esq; accordingly.

Council-Chamber, T. HUTCHINSON.
Cambridge, 8th April, 1772.

And at the same Time directed the Attendance of the House in the Council Chamber, who attended accordingly, when his Excellency was pleased to make the following SPEECH to the two Houses, viz.

Gentlemen of the Council, and
Gentlemen of the House of Representatives,

I Have, from time to time, regularly transmitted the Applications which have been made to me, in former Sessions, to convene the General Court in the Town of *Boston*, together with the Messages, Resolves and Votes of every kind, which have passed upon that Subject, and they have all been laid before the King. This is all I could do, consistent with my Duty, for as I have before observed to you, I prorogued the Court to *Cambridge*, upon a Signification of His Majesty's Pleasure to that Purpose, and I may not remove it to *Boston* without his Majesty's Permission.

Our Most Gracious Sovereign is ever ready to afford a favourable Attention to such Petitions and Requests of his Subjects as do not tend to injure the Constitution, and are, in other Respects, reasonable to be granted; and if you had desired me to carry the Court to *Boston* because it is the most convenient Place, and the Prerogative of the Crown to instruct the Govenor to convene the Court at such Place as his Majesty may think proper had not been denied, I should have obtained Leave to meet you at *Boston* at this Time; but I shall not be at Liberty to do it whilst this Denial is persisted in. If you shall desist from it and the removal of the Court to *Boston* shall, for other Reasons, be judged expedient, I have Authority to acquaint you that his Majesty will allow me to comply with your Wishes.

I have received, in the recess of the Court, a Letter from his Excellency *William Tryon*, Esq; Governor of his Majesty's Province of *New-York* proposing, with great Candor, Measures for the Settlement of the Boundary Line between the two Provinces. The Secretary will lay a Copy of this Letter before you. I recommend the Subject of it to your consideration, and shall be willing to contribute every thing in my Power to finish this long subsisting Controversy.

Gentlemen of the House of Representatives,

Upon inquiry into the State of the Treasury I find there are Surplusses of Funds which have been established for the Payment of Sums borrowed for the Charges of Government in past Years, and these, together with other unappropriated Stocks, are more than equal to the Sum which is necessary to satisfy the present Demands upon the Treasury and to provide for the Service of the advancing Year.

The Treasurer will lay before you the State of the Treasury and an Estimate of the Sums requisite for its Supply. It is with you to originate such a Bill as you shall judge proper.

Gentlemen of the Council, and House of Representatives,

Much Time is usually spent by the General Court in considering Petitions for new Trials at Law, for Leave to sell the Real Estates of Persons deceased by their Executors or Administrators, and the Real Estates of Minors by their Guardians. All such private Business is properly cognizable by the established Judicatories. If it be necessary that further Powers should be given to such Judicatories or that new Courts should be erected, I am willing to consent to any good and wholsome Law or Laws for those Purposes. A Legislative Body consisting of three distinct Parts, the Consent of each of which is necessary to every valid Act, is extremely improper for such Decisions. The Polity of the English Government seldom admits of the Exercise of this executive and judiciary Power by the Legislature, and I know of nothing special in the Government of this Province to give Countenance to it.

There shall be no delay on my Part in the Business of the Session and I will lay nothing unnecessary before you.

Council-Chamber, T. HUTCHINSON.
Cambridge, 8th April, 1772.

Edes and Gill's Gazette of Aug. 15, 1768, That a Gentleman in Boston had deposited 200 Dollars in the Hands of the Selectmen of this Town, to be by them distributed as Premiums to encourage the raising of Mulberry Trees in this Province; In the following Manner, viz. "To the Person that shall have raised from the Seed the largest Number of said Trees in the Fall of the Year 1771, being two Years and five Months old at least, 40 Dollars: To the Person who shall have raised the next greatest Quantity, 30 Dollars: To the Person raising the next largest Number, 20 Dollars; and to the Person who shall have raised the next greatest Quantity, 10 Dollars: Provided Certificates are brought from a Justice of the Peace ascertaining the Number and Age of said Trees; and that the Persons receiving these Premiums give the Selectmen their several Obligations to spare to any Inhabitants of this Province applying within Eighteen Months from the Date hereof, ten Trees at least for 3d. Lawful Money per Tree, until they have parted with one half of the Trees mentioned in the respective Certificates." Agreeable to the foregoing Advertisement the Selectmen after examining and comparing the Certificates which have been transmitted to them, have adjudged the first Premium to Mr. Leamnl Baldwin of Woburn; the second Premium to the Rev. Mr. Jason Haven of Dedham; the third to Mr. John Hay of Woburn; and the fourth to Mr. George Sprigs of Boston: And the Selectmen hereby notify them that they will be ready at their Chamber in Faneuil-Hall on the three following Wednesdays at 4 o'Clock Afternoon, to receive their several Obligations and pay their respective Premiums, agreeable to the Desire and Engagement of the Gentleman who has thus generously excited the Attention of the Public to an Article of Produce as natural to our Soil as it will be profitable to the Farmer; and which it is hoped will be so encouraged, as in a few Years to afford Sustenance for such a Number of industrious Insects, as will make the Article of Raw Silk no inconsiderable Branch of Export from this Province.

By Order of the Selectmen,
WILLIAM COOPER, Town-Clerk.

Boston, April 8, 1772.

☞ Besides the Trees raised by the Persons abovenamed, many Thousands have been rais'd by those who were not intitled to the Bounty, the Trees not being of the Age prescribed in the Advertisement, tho' now fit to be transplanted; and if the Farmers in the neighbouring Towns are made acquainted a considerable Number would doubtless meet a quick Sale.—The Mulberry-Tree, as Dr. Eliot in his Essays upon Field Husbandry observes, is of the quickest Growth; is durable as Red Cedar, and may be used for Ship Timber, Window Frames, Gate Posts, &c. and is very fit for Chests of Draws, Desks, Tables and other Joiners Ware. If these Trees are principally intended to produce Food for the Silk Worm, it is best they should be planted in Hedge Rows, as the Leaves may then be gathered by Women and Children.

BOSTON, April 13.

On Friday last the following Answer to the Governor's Speech to both Houses of Assembly, was unanimously Voted in the House of Representatives; and the next Day it was sent up to his Excellency by Mr. Ingersoll, Mr. Adams, Mr. Hobson, Brigadier Preble, Major Hawley, Col. Prescot and Dr. Hoston, viz.

May it please your Excellency,

THE House of Representatives have duly consider'd your Speech to both Houses at the Opening of this Session.

Your Excellency is pleased to acquaint us that "if we had desired you to carry the Court to Boston because it is the most convenient Place, and the Prerogative of the Crown to instruct the Governor to convene the Court at such Place as his Majesty may think proper, had not been denied, you should have obtain'd Leave to meet us at Boston at this Time; but that you shall not be at liberty to do it whilst this denial is persisted in."

We have maturely considered this point: And are still firmly of opinion, that such instruction is repugnant to the Royal Charter, wherein the Governor is vested with the full power of adjourning, proroguing and dissolving the General Assembly *as he shall judge necessary*. Nothing in the charter appears to us to afford the least grounds to conclude that a Right is reserv'd to his Majesty of controuling the Governor in thus exercising this full power: Nor indeed does it seem reasonable that there should; for it being impossible that any one at the distance of three thousand miles should be able to foresee the most convenient time or place of holding the Assembly, it is necessary that such discretionary power should be lodg'd in the Governor or Commander in Chief, who is by Charter constantly to reside within the province.

We are still earnestly desirous of the removal of this Assembly to the Court-House in Boston; and we are sorry that your Excellency's determination thereon depends upon our disavowing these principles: Because we cannot do it consistently with that duty which we owe to our Constituents. We are constrain'd to be explicit at this time; for if we should be silent, after your Excellency has recommended it to us as a necessary preliminary, to desist from saying any thing upon this head, while we request your Excellency for a Removal of the Assembly for reasons of convenience only, it might be construed as tacitly conceding to a doctrine injurious to the constitution, and in effect as Rescinding our own Record, (of which we still deliberately approve.

The power of adjourning and proroguing the General Assembly, is a power in trust to be exercised for the good of the province: And this House have a right to judge for themselves, whether it is thus exercised. We cannot avoid taking this occasion freely to declare to your Excellency, that the holding the Assembly in this place without any good reason that we can conceive of, under the many and great inconveniences which this & former Houses have so fully set forth to your Excellency, is in our opinion an undue exercise of the power; and a very great grievance, which we still hope will soon be fully redressed.

Your Excellency may be assured that this House will with all convenient dispatch, take into our most serious consideration, that part of your speech which concerns the establishment of a partition line between this province and the province of New-York; and that we will with great candor contribute every thing in our power to accomplish the same upon equitable terms.

The other parts of your Excellency's speech have had the proper attention of the House: And we are determined, during the remainder of this session, which must be short, to consult his Majesty's real service,—The true interest of the Province. vid. pa. 69.

The Articles we have extracted from the London Papers to the 7th of March, bro't by Capt. Jarvis, who arrived here on Monday last, we are under a Necessity of deferring till our next.

In Capt. Jarvis came Passengers, Sir Thomas Rich, Captain of the Gibraltar Man of War, and several Officers of the Army.—Capt. White from this Place was arrived in London in a short Passage.—Capt. Simmes from this Place and North-Carolina was arrived in the Downs.—The Sally, Capt. Pierpont from South-Carolina, at Cowes.—The Minerva, Raggles, from Boston, at Plymouth.—The Polly, ——, from Piscataqua, at Bristol.

Capt. Hall and Capt. Chambers; were to sail for this Place in all March.

Extract of a Letter from London, dated Jan. 28, 1772.

——"I was in Hopes I should have had the Pleasure of communicating something that might be agreeable to you. But the Conduct, particularly of the Chief Councillors at Boston, has baffled the Exertion of the few Friends you had left here. I believe, never was a Country, since the World began, so injured by its own Children. I will only tell you, that the Representations and Recommendations of your Town-born-Child has done more real Hurt to New-England, than you can easily imagine. This you may depend upon as Sacred Truth."——

Extract of a Letter from London, by the last Vessel, dated from Palace Yard, March 1772.

"I have now the pleasure of informing you, that the repealing act, imposing a duty on tea, will be repealed, having had the last reading in the House, and is ordered to be engrossed. The eyes of the ministry are at length open; they acknowledge they have been greatly deceived in American affairs, and are determined this session of Parliament fully to redress every American grievance and break up your Board of Commissioners. (2)

Our friend Hawkins observes, this will be a direful stroke to your Commissioner H—(3)—, who exulted here so much upon the news Capt. Gardner brought us of the Massacre of your Citizens, by the Soldiery on the Fifth of March 1770, and who, to use his own words, for I shall never forget them, said, "this is glorious news, indeed the very thing we were all wishing for."

I confess these expressions and the pleasing anxiety of delivery struck me with horror, and notwithstanding our former long friendship, gave a most contemptible opinion of the man ever after.

We both expect to have an opportunity of putting him in mind of this conversation, and the result of that catastrophe, as I make no doubt we shall soon see him here seeking after another commission."

We are told in Draper's Paper, April 3d, that "Sir Francis Bernard, Bart. was lately taken with a LIGHT *paralytic Disorder"; but, light as it was, one related to him writes, "that it had incapacitated him for Business of any Kind." The Account from others is, that it was not likely he would recover his former State of Health. 'Tis supposed this Shock took rise from a Mind overwhelmed with Anxious, despairing, tormenting Ideas, in Reflection on his Folly in having left the first Seat of Government in the Massachusetts Province, by being a faithful, however abandoned, Tool to those, who, having no more Use to make of him, have left him to shift for himself as well as he can. A speaking Instance to ministerial Tools and Dependants; as it is a striking Specimen of what may be expected will be the fate of those, who can bring themselves to act without honor, reason, or conscience, that they may recommend themselves to tyrants, who, when they have no further ends to serve by them, will lay them aside as no longer worthy of their Notice, whatever Contempt they may meet with from others. Dependance upon State Ministers is attended with so much Uncertainty, that 'tis strange a Man of ordinary Understanding should venture his Reputation, his Character, or so much as the Gratification of his Ambition or Avarice upon so precarious a Bottom.*

Last Friday 7-night we had an uncommon Snow storm for the Season, which again retarded the Post-Riders, so that they could not perform their Stages regularly.—It is said the Snow in many Places in the Country drifted from 8 to 15 Feet in height.—Considerable Damage was done at Rhode-Island in the Wharves on the Narraganset Side—out of ten Ferry-boats, six were drove ashore, and some lost.

Wednesday last died here, Capt. Bartholomew Cheevers, aged 88 Years. His Remains were decently inter'd on Saturday last.

Last Thursday a Son of Mr. Benjamin White's, at the North End, about 3 Years old, accidentally fell backward into a Kettle of boiling Water, and was scalded to such a Degree, that it expired soon after in the greatest Agony.

Last Friday Morning died at Newbury-Port, William Tailer, Esq; Deputy-Collector of that Port; and Son of the late Governor Tailer, deceas'd.

List of Letters in the Post-Office—B. V.—Chronicle—Americanus—and sundry other speculative Pieces, we are oblig'd to omit, in Order to gratify our advertizing Customers.

To prevent such Trouble, Expence, and Disappointment for the future, the Subscriber thinks it his Duty, to make the following Publication:
